

SENTENCED TO DIE

Dougal Claimed He Had Married the Rich Girl and That She Was Abroad When In Fact He Had Killed Her.

Cheimsford, Eng., June 23—Samuel Herbert Dougal, the Moated Grange murderer, whose trial has stirred England, is well known here, and is believed he made away with at least two wives while here with the Royal Engineers as quarter master. When he came he had his wife and two children with him. Mrs. Dougal became suddenly ill and died in a few days. Dougal immediately left for England and five weeks later returned with another woman whom he introduced as his wife. She was young and beautiful and reported to be wealthy. In fourteen days after her arrival she also took ill suddenly and died. Soon afterward Dougal went to England with the Halifax woman.

BURNED AT STAKE.

Police Made a Gallant Effort to Save the Confessed Murderer's Life—Five People Shot by Officers While Defending the Prisoner.

Wilmington, Del., June 22—Opinion regarding the burning of George White last night is divided but many today express satisfaction that the deed was done but the general feeling is that the state has been disgraced by this first exhibition in its borders of lynch law. The mob was organized by twelve men, dressed in women's clothing and masked. White burned nearly an hour before death came. Then his body was shot full of bullets. Investigation by the county officers will be made but it is unlikely that there will be any prosecutions of the offenders.

Wilmington, Del., June 23—Fired by ministers of the gospel and the women of Wilmington, George White, a negro accused of attacking and murdering Miss Helen S. Bishop, was taken from the New Castle workhouse, after a fierce battle with the guards, in which two men were shot, tied to a stake and burned.

The negro confessed and was shot full of bullets, as he was burning at the stake.

GREAT GRANDMOTHER AT FIFTY

Parkersburg, W. Va., June 23—Mrs. Lawrence Hunter, of Chester, W. Va., is believed to be the youngest great grandmother in the country. She is but 50 years old and Sunday night her great granddaughter was born. Mrs. Hunter, her son and her grandson were all married at the age of about 16, and children came to each of them early in life.

AMNESTY

For All Political Offenses One of the First Bills to be Presented to Serbia's New King.

Belgrade, June 23—The British minister here, in accordance with orders from his home government, left Belgrade this morning at 5:30 and will remain away until after the reception to King Peter.

One of the high officials of the provisional government today told your correspondent that one of the first bills that would be presented to King Peter would be one granting amnesty for political offenses. This bill will doubtless embrace forgiveness not only for those immediately connected with the recent assassinations, but also all those now in exile as a result of offenses in times gone by.

MAN EATS A SNAKE

And Tops it Off With a Handful of Grass--Says He is The Reincarnation of A Hog.

Morrisontown, N. J., June 23—Bicycleists passing along the Hibernia turnpike near Beach Glen saw a man sitting beside the road holding a squirming blacksnake in his hands. Suddenly they were horrified to see him bite the snake to his mouth and take a life of it. This he ate with apparent satisfaction and then picked up a handful of grass, which he also chewed vigorously, after which he took another bite of the reptile.

The authorities at Rockaway were notified and the man was at once taken into custody, but when captured only the head of the snake remained. The man gave his name as R. O. Granby and said that he had just finished his dinner of snake and grass.

Then he went on to explain that he was a follower of Mrs. Blavatsky and believed in the theory of reincarnation. He said he was the reincarnation of a hog, which was the reason he had a fondness for snakes and grass. He said he distinctly remembered where he was in the form of a hog, some thousands of years ago, and that he was one of the herd of 2,000 swine mentioned in Mark v, 13, that were drowned in the sea because the devils which had been cast out entered the swine.

'PHONE SYSTEM

To Be Installed at the State Camp Ground for the Use of the Ohio Troops.

Columbus, June 23—Adjutant General Gyger is letting the contracts for the equipment of the Newark camp grounds, in preparation for the encampment of the Ohio Division, O. N. G. A complete telephone system will be installed for the camp by the signal corps. There will be at least 50 telephones. The system this year is to be furnished by the war department, but will be in charge of the signal corps.

THRILLING

Battle Between Puma and Animal Keeper Awees Crowd in Lincoln Park, Chicago.

Chicago, June 23—Goaded to fury by a sore neck, snarling and watching its chance to spring, Beauty, a Lincoln Park mountain lion battled with Cy DeVry for two hours before a crowd of awed spectators last yesterday afternoon, and at nearly every stage of the contest the life of the animal keeper was in danger.

For two days DeVry had watched the puma and had noticed that it moped about and acted as if in pain. He thought it had ruptured a blood vessel. DeVry armed, with a pike and a noose, entered the cage of the puma. The animal sprang at him, but he dodged it and tried to angle the noose over the puma's head. Several times he had to defend himself with the pike but he did not succeed in landing the noose in the right place until he had been nearly two hours in the cage.

DUAL LIFE

Led by the College Professor, Who Was, It is Said, the Pal of a Crook.

Chicago, Ill., June 23—Police officials learned yesterday that Prof. A. A. Arthur, 70 years old, who was arrested last week for having worthless checks in his possession, served five years in the penitentiary at Anamosa, Iowa, under an assumed name.

The aged professor, who claims to have been an intimate friend of Abraham Lincoln, is alleged to have lived a dual life. While instructor of languages in an Iowa college he is said to have been in communication with the notorious check forger Beck.

When Prof. Arthur was arrested several hundred blank checks no the National Bank of McMinville, Tenn., were found in his possession. When arraigned in the police court the aged prisoner was fined \$50 and sent to the House of Correction where he spends his time in a sullen mood, deploring what he terms his 'reverse luck.'

The Heath Story.

Muncie, Ind., June 23—The story that Perry Heath had transferred \$50,000 worth of property to Ed Heath, his nephew, who is a young Muncie printer has proven untrue. Ed Heath received this week from the county treasurer's office an assessment sheet on what he supposed was 53 lots in Perry Heath's addition to Muncie. The sheet was addressed to "E. C. Heath." Investigation today reveals that the sheet sent was intended for "Ella C. Heath," and instead of being for 53 lots, was for lot No. 53, which is a different matter entirely. Investigation shows that Perry Heath's two business blocks here are still in his name. They are worth perhaps \$50,000.

A. O. U. W. Lodge.

St. Paul, June 23—The Supreme lodge A. O. U. W. adjourned its thirty-fourth annual convention. A readjustment of the assessment rates was brought about during the meeting. It provides for an increase in death benefit assessments beginning at the age of 24. At the age of 55 a much heavier increase will be made, but there will be no increase between the ages of 18 and 24.

The Supreme Lodge amended its laws so as to allow the Supreme officers to change the choice of the meeting place if in their judgment it be advisable, without consulting the delegates.

The office of consulting actuary was created and M. M. Dawson, New York City, was elected to fill it.

SAILS

Through Air In His New Ship

While Big Crowd Below Shouted Approval

DUMONT HAD PERFECT CONTROL OVER THE SHIP.

STEERING IT WHERE HE DESIRED.

The Aeronaut Has Splendid Results from His New Airship No. 9 at Paris Today.

Paris, June 23—Santos Dumont, the Franco-Brazilian aeronaut made a most successful trip over Paris in his new airship "Santos Dumont No. 9" today. He started from his shed at Long Champs and sailed over the city to the Arch of Triumph, which he rounded near the ground and then proceeded to his home No. 114 Champs Elysees, alighting at his very door. He went inside and spent a half hour at breakfast. He then entered his air car and returned to his shed. An enthusiastic crowd followed the ship through the streets, shouting wildly.

PLEADING

On Bended Knees to Prevent Burial at Sea Was of No Avail—A Big Sum Was Offered.

Philadelphia, June 23—Pleading on bended knees with the ship officials, and offering all the money he had with him if his wishes were carried out, Pierre Bennett, a wealthy manufacturer of this city, failed to save the dead body of his wife from a burial at sea. Heartbroken, he was compelled to stand by the rail with his two children while the tender hands of the brawny sailors of the French liner La Savoie, slowly cast the weighted and shrouded body into its last resting place in the blue Atlantic.

When his wife died, Bennett offered the Captain \$10,000 to bring the body to land. There were no appliances for embalming on board and the stern rigor of the unwritten laws of the seas fell heavily on the stricken family.

SQUADRON AT KIEL.

Kiel, June 23—The American squadron consisting of the battleship Kearsarge, cruisers Chicago and Cincinnati, and the gunboat Machias arrived here today. They were given a royal welcome by the German squadron and were cordially received by Admiral Prince Henry.

PRONOUNCED DEAD; COMES TO LIFE

New York, June 23—Pronounced dead by three surgeons, his alleged assailant arrested and held in heavy duty bail, Simon Greenberg, 60 years old, of No. 1414 Second avenue, was examined by Coroner Jackson, while laid out in the parlor of his home, and to the amazement of every one suddenly sat up alive.

Coroner Jackson after officially pronouncing Mr. Greenberg alive, hurried back to the police station, reduced the bail of the three prisoners and charged them with assault instead of homicide.

FIGHT AS DEATH CLOSES ON THEM

San Francisco, June 23—While the tug Priscilla, with a number of excursionists on board, was entering her wharf here J. D. Paulson, a book-keeper for an electric company, aged 35 years, and Edward Sellinger, a bartender, aged 21 years, began to scuffle in a friendly way and both fell in the bay.

Life preservers were thrown out to them, but instead of utilizing the buoys the unfortunate men engaged in a desperate struggle with each other and before assistance reached them were drowned.

HEALTH

Reports from Philippines are Proving Very Disquieting—Cholera and the Bubonic Plague.

Washington, June 23—Health reports from the Philippines are proving disquieting to the war department of late since they show an alarming increase of cholera, bubonic plague and other tropical diseases. The most recent death list shows nearly 25 victims of Asiatic cholera in the army. It was hoped that hot weather would wipe out these epidemics, but this has not occurred and the authorities at Manila have been forced to adopt the most stringent methods to prevent their spreading.

ENTERPRISING

Brooklyn Department Store Checks Babies While Mothers Go Shopping—Amusement Furnished.

New York, June 23—A Brooklyn department store, which began the custom of checking babies for mothers who wanted to do shopping has now hired a building, with a large backyard on Livingston street, and has converted the back yard into a playing ground. Along the fences scenery is arranged and against this are piled huge heaps of sand. The scenery represents the ocean and the sand gives a seashore effect to the place. There are pails and shovels for the children who want to play in the sand, and swings, rocking horses and other kinds of amusement for larger children. Attendants look after the children while the mothers shop. The youngsters enjoy it all very much, and it is no trouble to keep the average child there half a day without its parent.

FORMER WIFE

Planning to Break the Will of Inventor McKay, Though He is Still Alive.

Boston, Mass., June 23—While Gordon McKay, the inventor, whose machinery made possible the modern shoe factory, is dying at Newport, his former wife, the Countess Von Brunn, is planning to fight the will he has made leaving \$7,000,000 of his \$30,000,000 to Harvard College, claiming that the money should go to their sons, who since the divorce have lived with her.

McKay, who is over 70, married the woman who later divorced him to wed a titled man while she was yet a school girl, being the daughter of one of his servants. After living with him for several years she asked for her freedom, and on the day of her marriage to the German diplomat, McKay presented her with a dot of \$1,000,000 in lieu of permanent alimony, and a life interest in mansions in Newport and Washington.

THREE DROWN

Buffalo, N. Y., June 23—The great lakes tug O. W. Cheney was run down by the propeller Chemung at 3 o'clock this morning about seven miles up the lake. Three members of the tug's crew were drowned as follows: Captain Jno. Whelan, Andy Shaffer, steward, and Eddie Dugan, fireman, Engineer James T. Byers and the other firemen were saved. The tug Frank S. Butler of the Independent line picked the two up and brought them to this city.

Post Office Scandal.

New York, June 23—A Washington special to the Evening Post declares that the attorney general has been directed by the President to retain special counsel for the prosecution of all offenders in wrongdoing in the post-office department. He has also designated as his choice Charles J. Bonaparte, of Baltimore, and Homer Conrad, who served as solicitor general under President Cleveland. Although his plan has been in the President's mind for some time, its present consummation is his characteristic response to the demand from several quarters that he should utter some unqualified declaration indicative of his purpose to let no guilty man escape.

KNAPP TRIAL BEGINS

Strangler Seems to Enjoy Notoriety He Has Gained --It May Take Several Days to Secure a Satisfactory Jury.

Hamilton, O., June 23—The trial of Alfred Andrew Knapp, known as the "strangler" on account of his famous confession of the murder of five women and children began in the criminal court here today. Eminent counsel have been engaged for Knapp and the contention will be made that Knapp's confession was made under duress. Knapp was arrested in Indianapolis on February 25, 1903. The day after Knapp's arrest he confessed in the police station to Mayor Charles S. Bosch that he strangled his wife, Hannah, to death on the morning of December 22, 1902, and after packing her body in a shoe box, hired a rig and driving to the south corporation line of Hamilton threw the box into the Miami river.

Then followed the confession of the four other murders. The trial was called this morning with Judge Beldon on the bench. Prosecuting Attorney Warren Gard represents the state and Thomas H. Darby and J. M. Thomas of Cincinnati the defense. It is predicted that the venire of 36 jurymen will be exhausted, and that it will require fully three or four days to secure a satisfactory jury. Knapp sat in his chair in his usual unconcerned manner, peering about the court room and seemed to enjoy the notoriety he had gained. He was attired in a dark blue suit of clothes, was cleanly shaven and had his hair cut in the latest fashion. The court room was filled with spectators and attorneys.

PRAYED

In Public for Pope Leo's Recovery, and an Episcopal Rector Had to Resign.

St. Louis, Mo., June 25—Because Rev. James Milbanks, rector of St. Stephen's Episcopal church, at Ferguson, recently prayed in public for the recovery of Pope Leo, who was reported in bad health, the congregation has compelled him to resign.

Leading up to this action is a long series of theological differences. The rector it is asserted by his late parishioners, was very "high" in his theological views, while many of his congregation were correspondingly "low." Prior to his prayer for the Pope was a sermon on establishment of the Episcopal church in which he declared that it was "sown in iniquity." After paying his respects to Henry VIII, he spoke in very uncomplimentary and blunt manner of Queen Elizabeth, whose relations with the Duke of Buckingham, he declared, were extremely compromising even for that time.

Milbanks is extremely friendly toward the theatrical profession, and is educating a daughter for the stage. This is another of the grievances of the Ferguson folk against him.

There are nearly 270 different religions in the United Kingdom.

The Salvation Army Journal, the War Cry, appears weekly in 30 different languages.

TWENTY MILES

This Gun, Bound for Sandy Hook, Will Throw a Shell Weighing 750 Pounds.

Reading, Pa., June 23—The big brown segmental tube wire-wound cannon which was constructed at the Scott works of the Reading Iron company, here was shipped to Sandy Hook where it will be subjected to the most severe test ever known.

The gun is 37 feet 8 1/4 inches in length, and weighs 58,750 pounds. It has been made to fire a charge of 175 pounds of smokeless powder and hurl a shell weighing 750 pounds a distance of at least 20 miles. It is expected by the inventor that it will send a solid shot at the rate of 2,800 feet per second, with a maximum pressure of 37,000 pounds to the square inch.

Seventy miles of wire were required to wind the gun. This wire is equal with one-fifth of an inch area. The core of the weapon is made up of thin strips one-seventh of an inch thick. It required 280 of these strips running the full length of the gun. On the first trial the cannon stood a pressure of 37,500 pounds, and showed a velocity of 2,605 feet per second.

POPE'S CONDITION.

Rome, June 23—The excitement of yesterday's consistory has left the Pope in a weak condition. The fact that his stomach trouble continues and he can take but little nourishment is causing considerable anxiety.

UNTOLD RICHES

In The Mine of Alvarado Which Americans Try in Vain to Buy--Mexican Owner Jumps From Poverty to Wealth.

Parral, Mexico, June 23—The phenomenal richness of the Palmillo mine situated here, is attracting the attention of the whole mining world. This mine was discovered about four years ago by Pedro Alvarado a Mexican peon who was at that time working here at 50 cents per day. He still owns the mine. It is believed to be the richest in the world.

The American Smelting and Refining company, through its Mexican branch, the Guggenheim Exploration Company, has just made an unsuccessful effort to open negotiations with Alvarado to purchase his property. The agent of the great mining corporation approached Alvarado with a proposition that their mining expert John Hays Hammond, be permitted to inspect the mine.

"Why should he inspect it?" asked Alvarado.

"John Hays Hammond is the greatest mining expert in the world," said the agent, "and he can tell all about it."

"I know all about it," said Alvarado. "I go through it every day."

"But this is a great company. We want to make you an offer on the mine if you will permit our expert to examine it."

"I don't want to sell the property,

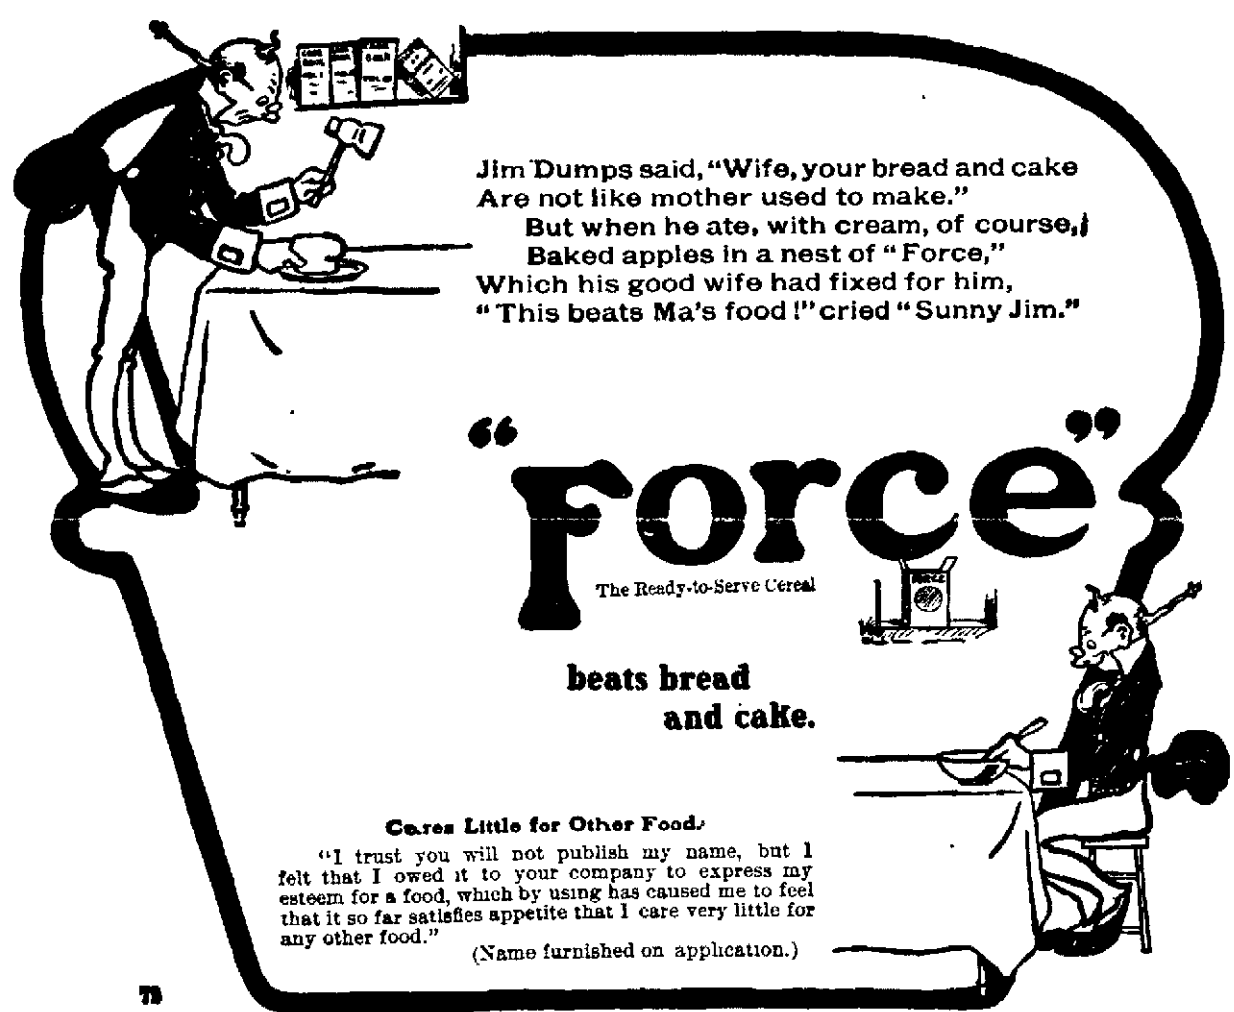

and, furthermore, no experts are permitted to enter my mine. I have armed guards there to keep them out."

Finding it impossible to get an expert into the mine to examine it the agent of the company asked Alvarado to make a price for his mine, and the company would pay him cash down. To this proposition Alvarado replied:

"Let the Guggenheims make a price for all their interests in Mexico, and if I find that it is reasonable after they are examined by my men, I will buy them. I am buying mines, not selling them."

Alvarado has nearly 1,000 burros carrying bullion from his mine to the railroad. How much has been taken out of it no one knows, possibly not even Pedro Alvarado. At the works of the Palmillo mine he has a steel cage in which are bars of gold and silver to a value estimated at \$50,000,000.

Lately a new vein has been struck in the mine, which is about 13 feet wide, which assays about \$100 in gold and \$500 in silver per ton. Alvarado recently offered to pay the public debt of Mexico as a donation to the government. His offer was rejected by Minister of Finance Limantour. He lives in a palace which he recently completed near Parral, and when he visits the town he is always accompanied by an armed body guard of 25 men.

Jim Dumps said, "Wife, your bread and cake Are not like mother used to make." But when he ate, with cream, of course, Baked apples in a nest of "Force," Which his good wife had fixed for him, "This beats Ma's food!" cried "Sunny Jim."

"force"
The Ready-to-Serve Cereal

beats bread and cake.

Cares Little for Other Food:
"I trust you will not publish my name, but I felt that I owed it to your company to express my esteem for a food, which by using has caused me to feel that it so far satisfies appetite that I care very little for any other food."

TOWNS NEAR NEWARK.

NEWARK BOY

ARRESTED IN MT. VERNON FOR HORSE STEALING

A Twelve Year Old Lad Gets Into Serious Difficulty—A Son of Durbin Worley.

Mt. Vernon, June 23—Harry Worley, aged 12 years, whose home is in Newark, was brought to Mt. Vernon shortly before midnight by Constable Holister of Mt. Liberty and locked up in the county jail on a charge of horse stealing.

Worley, who is a mere boy, did not appear to be concerned in the least about his arrest. It appears that on Sunday afternoon he was discovered by several persons walking along the road near Mt. Liberty with a halter in his hand. He told several persons that a horse belonging to his father had gotten away and he was looking for it. According to the story of several persons he stopped in front of a church where services were being held and deliberately untied a horse belonging to William Gilbert. He quickly got into the buggy and started on the road towards Hartford. A number of persons immediately started in pursuit of the young thief.

He was finally overtaken by the constable of Hartford who was mounted on a bicycle. Young Worley made no effort to escape, but gave himself up to the officer. He was taken back to Mt. Liberty where a warrant was sworn out in the justice's court charging him with horse stealing. He was brought to this city and locked up in the county jail shortly before midnight.

Young Worley refused to discuss his arrest to anyone. He takes the matter very coolly and has spoken but few words since he was placed in jail. His hearing will probably take place before the probate judge, but the date has not yet been set. The young prisoner resides in Newark, and is the son of Durbin Worley. The father has been notified of his son's arrest.

NEW COMPANY

Formed by Zanesville People Called the Ohio Power Co.—For Inter-urban Electric Lines.

Columbus, O., June 23—F. A. Durban, C. T. Atwell, W. B. Cosgrave, W. A. Gibbs and T. F. Spangler have just incorporated the Ohio Power company of Zanesville for the construction of various electric lines of railway from Zanesville to Columbus, Coshocton, Corning and Belpre. The capital stock is \$50,000 dollars, divided into shares of \$100 each.

CALLS IT A FAKE.

Columbus, Ohio, June 23—Thousands of circulars purporting to expose the secrets of the I. O. O. F., were scattered broadcast here yesterday. They were signed by M. Lusk, Delaware, O. Grand Master C. C. Pavey, of this city says the circular is a fake, and that it does not expose the Odd Fellows' ritual. Lusk is not known to the Odd Fellows.

VITRIOL

THROWER ATTACKS STUDENT AT ADA, OHIO.

Jealousy is Believed to Have Prompted the Deed—Scouring Town for the Unknown Culprit.

Ada, O., June 23—F. C. Lawhead, a pharmacy student from Van Wert, O., was terribly burned last night by sulphuric acid thrown upon him by an unknown young man, and all the students of the Ada Normal university are scouring the town for the culprit.

About 11 o'clock Lawhead was called to the door of his room at the Miller house. As he opened the door a young man whom he was unable to recognize, dashed sulphuric acid from a bottle into his face and fled.

Crazed by pain Lawhead called for help. When the services of a physician were secured it was found that his face was terribly burned and that he would probably lose his eyesight. His clothing was also burned.

Lawhead gave a description of his assailant and his fellow-students at once began a search for him.

Lawhead says that he did not know that he had an enemy living. Jealousy is the only motive that can be conjectured for the deed.

OLD WILL

Found at Springfield Will Cause Points to be Raised in Court—John Miller's Will.

Springfield, O., June 23—An interesting discovery was made yesterday in the will left by John Miller, which was filed for probate last week. The instrument was drawn in 1882, and Mr. Miller died in 1884, but it was not known to exist until last Wednesday when the widow in searching through some of her husband's papers found it. The widow is left the share she is entitled to under the law, and the remainder of the estate goes to his mother.

The question has been raised that the will is not valid because Walter J. Miller, an heir, was born several months after his father's death, and no provision is made for him in it. The claim is made that a father can disinherit a son who is alive before a will is drawn, but that he cannot disinherit a son unborn at the time the will is made. Suit will be filed to set aside the will.

INTERURBAN ELECTRIC.

Columbus, O., June 23—Still further carrying out their aggressive express campaign the Appleyard interurban lines will furnish facilities for taking care of stock shipments. Their express cars will be provided with portable loading chutes so that live stock can be easily and quickly loaded at any station.

Two fine new cars 42 feet in length and capable of seating 48 people, from the Jewett works at Newark, were placed in service on the C. L. & S. on Sunday. They will be run in half hour service to and from the United States barracks.

RESIGNATION

OF COL. STANBERRY ACCEPTED LAST NIGHT.

His Rigorous Rules, It is Said, Caused Some Opposition to the Gallant Sixth's Commander.

Columbus, O., June 23—Governor Nash and Adjutant General Gyger late last evening accepted the resignation of Colonel Stanberry, of Toledo, of the Sixth regiment. Lieut. Col. Ed S. Bryant, of Bloomdale, of the same regiment, qualified as colonel of the Second regiment. This leaves the Sixth without a colonel or lieutenant colonel, and a nominating convention has been called for June 27, at Toledo, to name successors to both officers. The election is fixed for July 2, from the hours of 6 to 10 p. m.

National Guard officers have not ceased to express surprise over the resignation of Colonel Stanberry. It develops that he was too good a soldier for a guard in time of peace. He was a severe disciplinarian, and he insisted on officers and men following the rules and regulations to the letter. It is said that he knew no individuals when it came to regimental work, and for that reason certain men began to oppose him. The matter came to a climax at an officers' school in Toledo some weeks ago, when there was an open revolt. The state authorities are inclined to criticize Colonel Stanberry for resigning under fire.

Prior to Col. Stanberry resigning there was a movement on foot among his friends to make him Adjutant General of the state under the administration if it happened to be Republican. Plans were being formulated to get the proper influence on Colonel Herrick.

BROKE HIS NECK.

Mt. Vernon, O., June 23—Charles Anderson, a molder who attempted to turn a back somersault from the shoulders of a companion, broke his neck and died yesterday.

TO MARIETTA

Appleyards Securing Estimates and Plans—Company is Figuring on Cost of Line.

Zanesville, June 23—A special telegram from New York says:

"The Westinghouse Electric and Manufacturing company are getting out estimates on contracts for an Appleyard syndicate for the electrical equipment of a proposed new electric trolley line from Zanesville to Marietta to be built along the Muskingum river. The equipment includes plans for power plants to develop electricity from the falls of the muskingum river of sufficient capacity to run the road. The details of the plans and figures of the estimates on the contracts have been withheld until subsequent contracts are executed if they are approved. It is understood the General Electric company is also seeking some contracts."

BEGGED FOR MORPHINE

To Satisfy Cravings But Saved Drug Given Him Until he Secured Enough to Produce Death --Prisoner Escaped The Law.

Columbus, O., June 23—A special and exclusive telegram to the Advocate yesterday told of the suicide of Miles Wallingford, in Denison Texas, Wallingford being the man who was wanted in Franklin county for alleged complicity in the murder of Farmer Geyer, a few days ago.

The following dispatch from Texas gives additional details of how Wallingford cheated the law:

Turnkey Staff says he supplied Wallingford with small doses of morphine to satisfy an alleged craving. The prisoner hoarded the poison until he had enough to produce fatal results, and then swallowed it.

Detectives Dundon and O'Neil, of Columbus, who came to Texas for the prisoner, had employed a special guard to watch Wallingford, to no avail. The fellow had made a rope of his bed clothes with which he intended to hang himself in case the poison failed to kill.

In the prisoner's cell was found a letter for Governor Lanham, stating that no Southern man could get justice in any Ohio Court on account of prejudice. He pleaded with the governor to refuse requisition papers.

In the cell, in Wallingford's hand-writing, was found a partially mutilated letter, in which he bade his friends farewell.

He asked that no tears be shed that he had chosen to die rather than to bear future suffering and humiliation. One paragraph in the letter says:

"Whatever my faults may be, I have acted the man with my fellowmen, and no one may have any fear of meeting me in the unknown beyond."

The letter bears his signature in a bold, clear, untroubled hand.

Detectives O'Neil and Dundon of Columbus made the following statement: "We took all necessary precautions. We feel that we have done our duty. We have the men in jail at Columbus who committed the murder. Wallingford's demise will not deter the conviction of the men now in jail at Columbus. The defense of Wallingford depended upon the Columbus woman with whom he went to the depot when he left Columbus, and by whom he expected to prove an alibi.

In a second letter found in Wallingford's cell he mentioned the murder of which he is charged and said he hoped the "snitches" would enjoy the money they got from the old man.

ZANESVILLE

Is Afraid Jones Foundry Will be Removed to Newark—The Concern Must be Enlarged.

Zanesville, O., June 23—The Newark Board of Trade has made a proposition to the Jones foundry of this city which may ultimately lead to the removal of this big concern to that city.

What the proposition is has not, as yet, been given out. That Mr. Jones desires to make a change of some kind is well known. His railroad facilities are poor at the foundry and real estate has gone sky high. The concern must be enlarged, but the way does not seem clear for that purpose.

Secretary R. A. Starrett of the Citizens' league will call a joint meeting of this organization and the citizens to be held at the league rooms this week. The matter will be brought up for consideration and a great pressure will be brought to bear upon Mr. Jones to keep his foundry here.

The Jones foundry formerly Jones & Abbott, is an old and established institution, having been located here over 40 years. It is the desire of Mr. Jones to rebuild and enlarge the plant and increase the capital and output. To do this he must receive encouragement and if Newark has made him a liberal proposition it is up to Zanesville to offer him more liberal inducements.

BROKE HIS NECK.

Coshocton, June 23—Joseph Aschbaker, aged 45, fell down stairs yesterday and broke his neck.

COUNTESS DE CHINCHON.

Vice Queen of Peru, Dying of Fever.

Was cured with the bark of a genus of trees found exclusively on the Andes Mountains, and in gratitude the Queen gave it her illustrious name, and today it is known in all the markets of the world as Cinchona Bark. Dr. Burkhart's Vegetable Compound has carried the name of its creator into millions of homes, and from every part of the civilized world letters come to him daily telling of the almost miraculous cures it has effected in chronic cases of Constipation, Rheumatism, Catarrh and diseases of the blood, 30 days' treatment 25c. All druggists.

SAFE ROBBED

Clyde, O., June 23—Cracksmen blew the postoffice safe here last night. They chased away a night watchman, after he had emptied his revolver at them and secured over \$200 and escaped.

The agents of the Bureau of Forestry will study forest fires as they burn and what conditions favor or hinder them, and just what damage they do to soil and to tree growth.

JUDGE MAY

Nestor of Richland County Bar is Dead. Was a Lover of Society and the Dance.

Mansfield, O., June 23—Judge Mansfield May, aged 77, the Nestor of the Mansfield bar, is dead of paralysis. He was born in this city and lived here all his life.

Judge May was graduated from Kenyon College and later attended the Cincinnati Law School, from which he graduated. Returning to Mansfield he entered upon the practice of his profession with his father. One of his later partners in the practice of law was John K. Cowan of the Baltimore and Ohio railroad. Judge May was a friend of the late Senator John Sherman and in his office a number of well known attorneys both of this city and elsewhere read law.

The judge was never married. He was a great lover of society and particularly of the terpsichorean art. For years he was a member of various dancing clubs and until about a year ago was frequently seen at social gatherings.

Even when he became so enfeebled that he could scarcely get around he was accustomed to attend social gatherings and by attempting the dances showed that his heart still beat young. The funeral services will be conducted on Wednesday by the Mansfield Commandery of Knights Templar.

Knights of St. John.

Columbus, O., June 23—The Silver Jubilee convention of the Knights of St. John opened yesterday and will continue four days. The delegates, headed by St. Cecilia's Commandery band, of Cincinnati, marched to the cathedral, where Archbishop Moeller celebrated mass yesterday.

Governor Nash welcomed the visitors to the state, and Mayor Jeffrey welcomed them to the city. Supreme President H. J. Fries responded. The sessions of the Ladies' Auxiliary are held in the Great Southern Hotel. The knights meet at the Board of Trade Auditorium.

Yesterday afternoon the knights paraded the downtown streets of the city. In spite of the rain and mud thousands were in line.

The Ship's Steward.

A steward is nothing more or less than a combination waiter and chambermaid. His duties begin an hour before breakfast, by all rights, inasmuch as it should take him that time to brush up his blue or black uniform, shave, make his hands neat and shine his shoes. He is supposed to wear a spotless and expansive bosom to his shirt, clean collar and black or white tie. I do not think I ever saw but two stewards who had shirts; all the others used a dicky for the sake of economy.

Waiting on the passengers at table, the care of the tables, the care of the silverware and a certain amount of dishwashing and pantry work make up the steward's dining room duties. The other half is work in the staterooms, making the beds, straightening up the rooms and doing the general work of a chambermaid, as well as giving a certain amount of attendance to the occupants of the rooms.

The pay is very poor, and the principal dependence of the steward is on the tips he receives. They are really the poorest paid class that go to sea in one way, and yet I have known men to make \$40 in tips on a six weeks' voyage.—Leslie's Monthly.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va. serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began to taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Frank D. Hall, druggist. Regular sizes 50c and \$1.00.

The Horse In Mythology.

The Greeks placed in the sun the god of their wisdom and intelligence and gave him a chariot and four fiery horses—the chariot to symbolize doctrine and the horses intelligences. So with their god of the sea, Neptune was drawn in his sea chariot by horses—the sea to symbolize all scientific knowledge in general, the chariot to symbolize doctrine or science and the horses intelligences. They mythologically described the birth of the sciences by the flying horse Pegasus, which with its hoofs burst open a fountain out of the hard rock at the moment of his rising from earth to heaven, at which fountain were seven virgins who were the seven sciences.

The flying horse symbolizes an intelligence directed heavenward; the hard rock represents hard matter of fact or sensual knowledge; the fountain springing therefrom represents pure truth, where the virgin sciences delight to dwell.

Next Sunday's Lecture-Sermon.

The many people who heard the Rev. T. L. Kiernan at the Plymouth Congregational church Sunday evening on the "Fulfilled Prophecies," will no doubt be pleased to learn that on next Sunday evening, June 28, he will deliver a lecture on "The Jews in Prophecy," a subject which he barely touched upon last Sunday evening. Rev. Mr. Kiernan has made the subject one of deep study, and at this time when the persecution of the Jews is so fresh in one's memory, this ought to make an interesting and entertaining subject.

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives, or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant, aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Many of the ills from which women suffer are of a transient nature and do not come from any organic trouble and it is pleasant to know that they yield so promptly to the beneficial effects of Syrup of Figs, but when anything more than a laxative is needed it is best to consult the family physician and to avoid the old-time cathartics and loudly advertised nostrums of the present day. When one needs only to remove the strain, the torpor, the congestion, or similar ills, which attend upon a constipated condition of the system, use the true and gentle remedy—Syrup of Figs—and enjoy freedom from the depression, the aches and pains, colds and headaches, which are due to inactivity of the bowels.

Only those who buy the genuine Syrup of Figs can hope to get its beneficial effects and as a guarantee of the excellence of the remedy the full name of the company—California Fig Syrup Co.—is printed on the front of every package and without it any preparation offered as Syrup of Figs is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere at 50 cents per bottle.

Congress Must Take Hold.

President Roosevelt has run Mr. Payne on to a sidetrack and will himself manage the lever during the post-office department investigations into their second series relating to affairs since the "Cuban war period." The purpose is manifestly to prevent a congressional inquiry. Credit will be accorded to the President for disposition to find the core of the costly system of looting. But he will be handicapped in the same way as Messrs. Wynne and Bristow have been.

The suspicion will always attach that a selective method of investigation has been adopted, and that when the trail got hot it was abandoned. No oaths are administered and records only are used, and explanations are then demanded of officials thus implicated. And explanations or denials are readily accepted, at least by Mr. Payne, now shunted. But a congressional committee must send for persons and papers, hear witnesses under oath, and trace all the private information that will deluge it from every source. The people will not be satisfied with anything else.

Mr. Payne cannot resign under fire. He is like the man hanging above a precipice by a hot wire. He was prompt to publish denials of Mr. Smith and Mr. Heath but held the Bristow report for six weeks. That would be enough foundation for his removal, but he must stay until his own period is examined.

The grand jury hearing in the Driggs case in New York is suggestive. Bruce Correll, of Canton, O., an assistant doorkeeper in the House, introduces ex-Congressman Driggs to the agent of an automatic cashier company. He sued later for \$700 for this introduction, and justifies the "making something on the side" by the expenses of sending his two sons to college. This agent was George F. Miller, also of Canton, and likewise from that place was the attorney, named Baldwin. The congressman admits he got \$12,000 for having 250 machines bought, but thought his violation of the law was "technical." It is a network of localities and persons and connections like this which makes the demand for congressional action imperative. Petty speculations and petty persons must not be carefully selected, and the big game be allowed to go scot free.

July Century.
The July Century is distinctively a fiction number; and the list of stories is long and varied enough to please the most omnivorous appetite for fiction. Easily first in interest is Homer B. Hurlburt's "The Sign of the Junna" telling the thrilling details of a British subaltern's search among the Himalayas for literary treasure-trove. How he found a remarkable book, now in the British museum, but at the cost of 25 years imprisonment in a mountain monastery, makes an unusual and engrossing tale. John Luther Long's "The Siren" is far from being a conventional romance, and it has the flavor of the sea; the coast is just the place to read the story of savage Brassid and the laughing Sea-Lady.

CASSINI

Will Remain Until United States is Granted Open Ports in Manchuria.

Washington, June 23.—Until the one remaining issue in the negotiation of the Chinese-American commercial treaty, the granting of open treaty ports to the United States in Manchuria, is decided, Count Cassini, the Russian Ambassador, will not leave Washington for Europe. Because the negotiations are now at a critical stage he has cancelled the passage he engaged on the Kaiser Wilhelm II, sailing Wednesday, and he will probably not depart before July 2.

The United States has asked that Moukden, Taku-shan and Harbin, Chinese ports in Manchuria, be opened to America. England and Japan have made similar demands on China in regard to other Manchurian ports.

Russia makes no secret of her opposition to the opening of the ports in Manchuria to other powers. She holds that an open treaty port thus granted would give the country gaining it a political hold with Russia's dearest "sphere of influence." For this reason Russian influence has been thrown against the granting of open treaty ports, but so vigorously has the United States pressed its case that a compromise is in sight whereby the United States will get a commercial, but not political, entry into Manchuria.

So Count Cassini will wait here until the agreement is reached. He will run no chance of any slip being made.

Backache pains come from sick kidneys.

Doan's Kidney Pills will cure it.

Newark people endorse this:

Mrs. John Goodwin, of No. 9 Meyers street, says: "My back was so painfully troublesome that I could neither lie, sit or stand with any comfort. It was the first time I had anything wrong with my kidneys and happening to see Doan's Kidney Pills endorsed locally, and the description of the trouble so coincided with mine that I sent to Crayton's drug store and got a box. After I had been using them a short time, I felt that I was improving. My back finally got well, so that I was before long able to be around again."

KILLED IN A WRECK.

Albuquerque, N. M., July 23.—In a head-on collision between a fast freight and a work train on the Santa Fe near Los Cerillos, last night Fireman J. Englehart, of Las Vegas, was killed and Fireman Redding probably fatally injured. The wreck was piled 50 feet high.

On foreign intercourse the United States spends \$7,200,000 a year, but consular fees and other receipts cut this to less than \$1,000,000.

The general result stated by Mr. Dunham of the Hartford (Conn.) municipal light plant, who has 4,000 Nernst lamps, is that he can produce the same illumination at a general cost of less than one-half that of incandescent lamps.

Santos Dumont says he will probably be obliged to make the trial trip with his 10-passenger balloon with sandbags in place of persons.

TILLMAN

TRIAL OPENS IN COLUMBIA, ARE TO REMAIN IN JACKSON, SOUTH CAROLINA. KENTUCKY.

Opposition to Proposition to Remove Case to Another County—Tillman Appears in Court.

Columbia, S. C., June 23.—A motion was made before Judge D. A. Townsend for a change of venue for ex-Lieutenant Governor James H. Tillman charged with the murder of Editor N. G. Gonzales.

The case was called four hours before the time set, when the court room was empty, but it quickly filled, many business men leaving their stores and offices.

The prisoner was brought from the jail, where he has been for five months and seven days. He was dressed in a closely fitting new black suit, wore a black tie and wide standing collar. Senator Benjamin R. Tillman accompanied him to the door of the court house and then went for the women of the family. Senator Tillman came into the room with Mrs. James Tillman and the mother of the prisoner, Mrs. George Tillman, widow of the late Congressman of that name. The wife of the prisoner led in her little son, and during the proceedings the five year old boy played about within the railing, his father often talking to and smiling at it.

Mrs. Tillman sat in the court room. Senator Tillman was conspicuous in the court room. At times he would walk around and converse with spectators, at others talk to his nephew and his lawyers.

The judge sitting in the case was a young lawyer when Tillman became Governor. Townsend was successively elected Attorney General and Judge. He is said to have expressed disapproval of the refusal of the Chief Justice to grant bail.

The defense had 300 affidavits from persons who swore that Tillman could not get a fair trial in this county. The most prominent affidavits on that side are attorneys. These maintain that the pulpit and press of the county have stirred the people and that the prisoner has been prejudged to be guilty of assassination. The attorneys alledge to their having been ostracized by their friends, who are bitterly opposed to their defending Tillman. They maintain that the State, the newspaper of which Mr. Gonzales was editor, has let no opportunity pass to allude to crimes and the need of enforcement of law, and so has influenced the people against their client.

The prosecution will have about 400 affidavits. Only part was read before adjournment. Every preacher in the city swore that the charge that they have preached against Tillman is false. Every one declared a fair trial could be had here. Then lawyers, doctors, merchants, bankers, clerks, mechanics, and farmers throughout the country followed along the same line. The preachers said they would have commented on the homicide, but were guided by the brothers of the deceased editor who set an example of forbearance.

In his affidavit W. E. Gonzales says that he is editor of the State newspaper and that during his incumbency nothing has been printed to incite the public or mold sentiment against Tillman.

TROOPS

ARE TO REMAIN IN JACKSON, KENTUCKY.

Governor Will Send More if Necessary—Special Term of Breathitt Court to be Held.

Lexington, Ky., June 23.—The matters contained in the official report of State Inspector Hines upon his recent investigation into the Breathitt situation was the basis of a important conference in this city last night between Governor Beckham, Inspector Hines, Judge L. D. Redwine and the Commonwealth's Attorney Floyd K. Byrd. The conference took place in the Phoenix hotel and lasted until midnight. The result of the conference was that a special term of the Breathitt Circuit Court will be called on July 20, and the grand jurors selected for the term will be instructed to take up the arson and bribery cases with such other matters that may be given into their hands. It was also decided to retain the troops already in Jackson until that time and to send such additional forces as may be necessary to protect the jurors and the witnesses. Adjutant General Murray and Colonel Williams were present at the beginning of the conference but left shortly after it began.

The meeting had been prearranged. Governor Beckham and Inspector Hines came in from Frankfort on the 8:40 C. and O. train, while Judge Redwine and Attorney Byrd arrived two hours earlier on the Lexington and Eastern from Irvine, where they had been holding court. Attorney Tom Marcum also came up from Jackson on the same train, and will leave for his home in Oklahoma tomorrow. He stated that he would have remained in Jackson longer, but that he knew attempts had been made to poison him, and he preferred to take no chances. He said, however, that he would come back "to see the scoundrels hanged."

The meeting between Tom Marcum and Captain B. J. Ewen at the Phoenix hotel was pathetic. He paid Ewen a high compliment for his courage and bravery. The two hours that intervened the arrival of Judge Redwine and Governor Beckham was spent by the former with his brother. He was visited by Captain Ewen, and together the two discussed the main features of the recent trials. During the conversation Judge Redwine voluntarily made the statement, it is said, that he could not understand how any man could refuse to convict Jett in face of such testimony as was given at the trial. The burning of Ewen's house was also discussed, and the opinion was expressed that when these matters were being investigated the facts connected with previous killings would be told.

While considerable secrecy is placed around it a new witness has been found who will testify at the next trial and who is said to have been an eye witness of the killing and who identified the murderer. Those professing to know refused to give his name for publication because they said they feared assassination. Captain Ewen has decided to leave Lexington and will pass the intervening time until the next trial in some place unknown. He reached this determination tonight after receiving a letter from his wife in which she told him an effort would be made to get him out of the way and prevent him from testifying against Jett. He will leave for Louisville today, having wired Mrs. Mary Ewen Ransom, of that city, to meet him at the Galt House there, his purpose being to thank her in person for the offer of a home in that city. From there Ewen will go to Canal Winchester, O.

The trial of Jett and White in Harrison county is to be arranged for such a time that it will not conflict with the sitting of the Breathitt Court, so that Commonwealth's Attorney Byrd can be present and assist in the prosecution.

Captain B. J. Ewen was informed last night of the statement made by R. A. Lyon, the insurance man, to the effect that there was a policy on Ewen's home for \$2,000 uncancelled at the time of the fire, and which was in full force and effect. To the correspondent he said "All I have to say is that I hope it is true and wish it was twice that amount. Joe Head, the local agent at Jackson, told me that the policy had been canceled and that is all I know about it. If you write to Head he will be able to tell you more about it than I can."

Seaweeds.
"There is much that is wonderful to be told about seaweeds," said a naturalist. "Some of them are giants in size. One species, common in the North sea, frequently grows to the length of thirty or forty feet, developing in the shape of a long cord about the size of a quill, attached at one end to the bottom and the rest supported by the water. This is nothing, however, to the prodigious macrocystis, which attains 1,500 feet in length. Another variety found in the tropics reaches a length of twenty-five or thirty feet, with a trunk as thick as a man's thigh."

A Sure Cure.
"Our social system is all wrong!" exclaimed the frenzied orator. "Our social system is all wrong, and something must be done!"

A man in the rear of the hall walked quickly up the aisle.
"I have a suggestion," he remarked.
"The brother has a suggestion!" shrieked the orator. "Let us listen to the words of the brother."
And the brother passed up a card which read:
"When your system is wrong take Blinkum's tonic. It cleanses the system."—Baltimore News.

CITY COUNCIL

GRANTS USE OF SQUARE FOR THE EAGLES' CARNIVAL.

Mr. Bourner Re-appointed—Bond Issue Proposed—To Pay Mr. Wagonheim—Proceedings.

The City Council met in special session Monday evening with Messrs. Jones, Miller, Baker and Carlisle present and President Rossel in the chair.

After the call for the special meeting had been read the matter of electing a sergeant-at-arms was taken up. On roll call Caleb Bourner was unanimously re-elected to the position for the coming year.

The law committee submitted a report, recommending that John Wagonheim, contractor for the curbing of Elmwood avenue, be paid.

The committee also recommended that the ordinance providing for the registration of births and deaths be amended to assess a penalty of \$25 or more for a second offense.

Because a number of property owners along Elmwood avenue had filed a protest with council against the manner in which the curbing was done the propriety of adopting the committee's report was given a thorough discussion.

City Solicitor Smythe believed an expensive law suit would be evaded by paying Mr. Wagonheim. The contractor spoke in behalf of his work and council unanimously voted to adopt the report.

A petition from the property owners on the public square giving consent and requesting council to grant permission to the Licking Aerie of Eagles to hold their free street fair on the square was received.

A report from the Board of Tax Commissioners, accepting the tax levy for municipal purposes for the year of 1904 as passed by council at the last regular meeting was received. The tax levy is for 13 mills.

Ordinances.

IN COLLEGE

At Delaware the Couple Met—Senator's Daughter Weds Tiffin Bank Cashier at Chicago.

Chicago, June 23—Miss Cecil Lewis, daughter of United States Senator A. B. Lewis of Utah, was married to Frank P. Blair of Tiffin, Ohio last night at the Auditorium Annex. Miss Lewis' home is in Salt Lake, where the wedding was to have taken place several weeks ago. Circumstances, however, compelled its postponement and made necessary the hurried meeting in Chicago. The young couple were classmates at Ohio Wesleyan college, Delaware, Ohio. They left last night for Tiffin, Ohio, where the bridegroom is cashier of the Citizens National bank.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "for three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. 50 cents. It's guaranteed by Frank D. Hall, druggist.

MORE FLOOD VICTIMS.

Heppner, Ore., June 23—Four more bodies of flood victims were found yesterday, among them that of A. M. Peterson, a drummer from Chicago. The total of known dead is 177 and 35 persons are still missing.

The condition of Squire James Taylor who had a slight stroke of paralysis on Thursday of last week, is reported as being considerably improved.

JUDGE OVERTURE Renominated for State Senate by Republicans Who Met in Convention in Newark Tuesday Morning—Nominated by Acclamation.

The Republican Senatorial Convention of the joint 15th-16th District of Ohio, was called to order at 10:35 by J. H. Wright, of New Lexington.

The temporary organization was announced as Charles T. Shryock of Zanesville, chairman, and W. D. Thompson of Delaware, secretary.

On motion of C. L. H. Long the temporary organization was made permanent.

The committee on resolutions and Senatorial Committeemen were named as follows:

Resolutions.

Delaware, Arthur Jones.

Licking, Arthur Wyeth.

Muskingum, C. E. Cochran.

Lerry, D. H. Foster.

Senatorial Committee.

Delaware, W. D. Thompson.

Licking, J. M. Ickes.

Muskingum, W. B. Randolph.

Ferry, Dr. J. H. Wright.

Mr. L. S. Lake of Licking county, moved that delegates present cast full vote of the county, which was carried.

Chairman C. E. Cochran of the committee on resolutions reported endorsing Roosevelt's administration, and also the two Ohio Senators, Hanna and Foraker.

A resolution was also reported endorsing Senator N. F. Overture's actions while in the Senate, and also one declaring in favor of the improvement and maintenance of the Ohio canals, and endorsing Overture's votes along this line.

Nominations were called for and H. W. Jewell of Delaware county, placed the name of Norman F. Overture of that county, before the convention. The other counties did not nominate any candidates and on motion of J. M. Ickes, Judge Overture was nominated by acclamation.

Judge Overture was present and came forward and accepted the nomination.

Er J. H. Wright of New Lexington, was called on and made a short speech. Ex-Congressman Archibald Lybrand, of Delaware made a three minute speech.

It J. Hoover, member of the State Executive committee was called upon and made a short address.

The Senatorial committee was authorized to fill any vacancy that might occur on the ticket.

On motion of J. M. Ickes the convention adjourned.

OUTING

At Buckeye Lake Enjoyed by Members of the Royal Arcanum Tuesday. Big Crowd Attends.

The members of Bayard Taylor Council, Royal Arcanum of this city, together with their families and friends, had their annual outing at Buckeye Lake Tuesday. The depot of the Buckeye Lake road and the cars were crowded to their utmost capacity Tuesday morning with the merry picnicers, who went heavily loaded with baskets full of good things for the inner man. Music dancing, boating and fishing were the order of the day.

FINE CHARM

Presented by Carpenters and Painters to E. W. Crayton, President of Real Estate Company.

Just at the close of the day's work Monday, one of the men hurriedly approached Mr. Edward W. Crayton, the president of the Newark Real Estate and Improvement company, at the new Union block corner Church and Fourth streets, and told him that there was some trouble among the workmen in the central part of the big block.

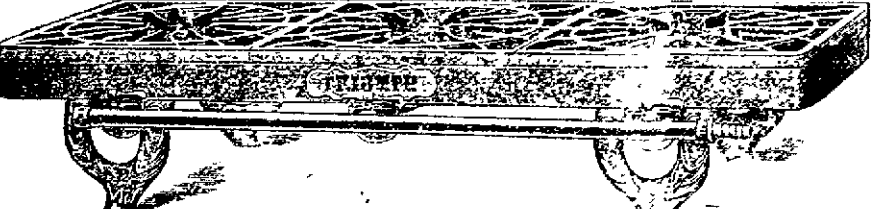

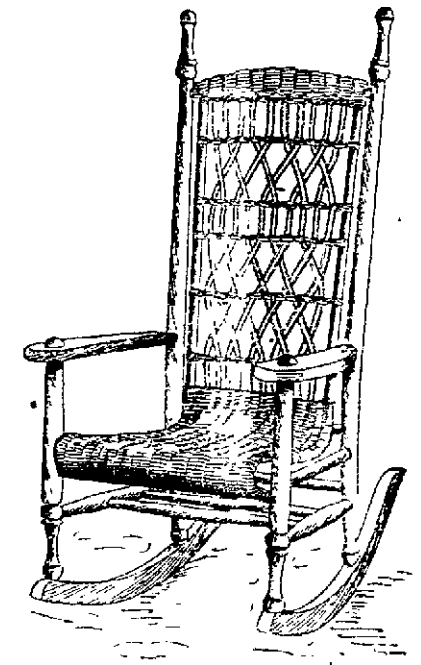

Mr. Crayton hastened to the scene going up four steps at a time, and was surprised to find the entire force of carpenters and painters congregated in the H. J. Hoover hall in the new block. There was no evidence of any disorder and no trouble was apparent but before Mr. Crayton had time to ask what it was all about Foreman Tomlinson stepped forward and on behalf of the carpenters and painters employed by the real estate company, presented Mr. Crayton with a very handsome gold watch charm, bearing Wm. Critchfield went to Mt. Vernon this morning.

the 32 degree Masonic and Elks' emblems. The charm was appropriately engraved and very artistically designed by Mr. Stinger.

The work on the big block having practically been finished the men deemed it a proper time to show their appreciation of the way in which Mr. Crayton had treated them. Before separating to go to work on the various houses which the real estate company is now building in various parts of the city, the men thought they would have a little surprise party for the head of the company. It was a surprise party sure enough. Mr. Crayton didn't faint but it was a moment or two before he was able to express what he felt—his deep appreciation of the kindness and thoughtfulness of the workmen.

IS READY

To Marry Woman but Coachman Declares the Rich Widow Refuses to Marry Him.

Youngstown, O., June 23—A sensation was caused yesterday afternoon by the filing of a breach of promise suit by Mitchell Irwin, a coachman, against Mrs. George B. Sennett, a rich woman of the city. The case dates back to the time that George B. Sennett, formerly of Meadville, Pa., was married to the present Mrs. Sennett. At his death a lawsuit followed the filing of the will, which gave everything to the second wife.

Sennett owned a plant at Meadville for the manufacture of oil well supplies. He was one of the wealthiest residents of the city. Mrs. Sennett, the first, with her daughter, moved in the highest society. When the woman who became the second Mrs. Sennett appeared on the scene there was a divorce. He married her and a short time afterward moved to this city, bringing with him the manufacturing plant.

When they arrived here one of the finest mansions on Wick avenue, an aristocratic street, was erected for them.

When Sennett died there was a contest over the will, but it was settled the second Mrs. Sennett giving the wife and her daughter a considerable sum. Since that time she has lived alone but has operated the large factory as the George B. Sennett Co.

Recently Irwin threatened to bring suit for breach of promise. Upon the mention of it to Mrs. Sennett she became ill. Irwin was still at the house. While Mrs. Sennett was ill in bed her attorneys in the presence of a city detective, discharged the man. The suit for \$5,000 followed. He claims that the agreement entered into was that he was to obtain the ownership of the horses, carriages, etc., as soon as they were married, and that he is now willing to carry out his part of the contract. Mrs. Sennett is 60 and Irwin 30.

GAS BY METER

AT LOW PRICE OF 18 CENTS PER 1000 CUBIC FT.

Newark has been paying a high price for gas for several years, when they take into consideration the price \$3.33 a month for seven months for a heating stove and about the same price for a cook stove. At this flat rate the people of Newark are paying more for gas than any other town in the country.

We last year put Chillothe on meter under the same objections that the citizens of Newark have been objecting to, for several years, as the people imagined that meter gas was very expensive, but we are positive when we say that Chillothe and other towns, would not return to the flat rate system at any price. We cite you town for reference, and the price at which we offer the gas to you is way below that of any other in the country, as Chillothe pays 25 cents, and at the rate of 18 cents per 1000 cubic feet in Newark, there is not a single family in the whole town that burns gas today, but what can be afforded to burn gas by meter than by flat rate. You will get better service, and in one year's time you will say that meters are a blessing. Furnaces can use gas at 18 cents, which is cheaper than coal. Buy the proper appliances, and save the price of them in a very short time.

People wanting to change now can do so and get the benefit of the warm months, as gas bills by meter are very small in the summer. After October 1st, the company will insist on the use of meters.

THE RAILWAYS

STATEMENT FOR THE B. & O. FOR THE PAST YEAR.

Newark Rejoices in the Prosperity of This Great Railroad.—Freight Handlers' Strike.

The statement just issued by the B. & O. railroad company shows a remarkable increase of business during the entire year just passed. It is an increase that has been brought about by hard work, good management and fair dealing. The first railroad in the country in point of time, the B. & O. management is determined that so far as lies in its power it shall be the first railroad in every other respect. Millions of dollars have been invested judiciously in improving the roadbed, rolling stock and general equipment, and in putting the road in first class order for general freight and passenger business. Today there is no road better manned or equipped than the B. & O., and the fruits of this wise management are shown in the largely increased business according to the published statement. Newark owes much to the B. & O. road and the B. & O. road owes much to Newark. Our enterprising and growing city is an important shipping point, not only in the way of crops and general produce and stock, but also in the way of manufactured products of all kinds. The freight shipments of a few of Newark's leading industries, like the Moser & Wehrle stove works, the Everett glass works, the Jewett car works, the Heisey glass works, the James E. Thomas foundry, and other manufacturing plants that might be mentioned, amount to a big thing in the course of a year. Pro contra, Newark business and business men derive a large patronage from the B. & O. shops and the B. & O. railroad men, and the amount of money annually distributed here in Newark by the B. & O. road contributes a large portion of the revenues of our business men. Our city and the B. & O. road are mutually interdependent. The prosperity of one is the prosperity of the other, and the failure of one is the failure of the other. This being so, Newark naturally rejoices in the continued and increased prosperity of this great railroad.

B. & O. Caller John Wooley is attending the Royal Arcanum picnic today.

B. & O. Engineer John McGrath who has been the past four weeks at Hot Springs, Ark., has returned home much improved in health.

Freight Handlers' Strike.

Kansas City, Mo. June 23.—The striking freight handlers have been black-listed and the strike will not be arbitrated by the railroads. The State Board of Arbitration invited the railroads last week to have the differences between them and the striking freight handlers submitted to the arbitration of the board. This invitation the railroad officials have now refused to accept. Nearly all the places of the strikers have been filled.

JNO. MITCHELL

The Miners' President is Writing a Book on Labor Conditions Hasn't Named It.

Indianapolis, Ind., June 23.—John Mitchell, president of the United Mine Workers of America, is about to enter the literary field. He admitted Monday that he has been writing a book and that he expects to have it published within the next six months. Mitchell's own experience as a labor leader and his intimate association with the big capital interests of the country have furnished the theme. He is writing of trades unionism, the relations of capital and labor and the great problems confronting them today. He does not care to go into detail about his work, "for I haven't even decided on a name for it," he said. "Incidentally I shall trace the trades union movement from its inception. I have found that men organized guilds or unions seven or eight centuries ago. Of course, I shall not try to give a complete history of trades unions, as my idea is to deal with the great problem in which capital and labor are now interested."

Mitchell says he is not in poor health but that he is tired from work. He will take a vacation during the entire month of August when he will complete his book.

MORE ABOUT MRS. CLARK AND HER NOTED ANCESTRY.

As exclusively told in the Advocate Monday, Mrs. Hannah Follett Clark died that morning at Croton being 100 years of age less four months. Her father, Judge Martin Dewey Follett, was a soldier in the revolution at the age of 15, and was a captain in the war of 1812.

Her grandfather, Benjamin Follett, was killed in the massacre at Wyoming, near Wilkesbarre, Pa., in the Revolution, and her grandmother, Elizabeth Dewey Follett, after losing their fine farm and all the stock and crops, made her way to friends in Vermont, traveling with her five children the distance of over 200 miles through what was then a wilderness, on one old horse that the Indians and Tories did not think worth driving off.

MRS. HANNAH F. CLARK.

Mrs. Clark's great grandfather was Benjamin Follett, who, an old man, had assisted in the defense of Wyoming, Pa., and had been one of the founders of the Susquehanna company, formed in Connecticut for the settlement of the Susquehanna valley, and had been an officer in the French and Indian wars, holding a commission as lieutenant.

Mrs. Clark's grandfather, John Fasset, was a captain in the Revolutionary army, and many are the tales she could tell that her mother had told to her, of the Burgoyne invasion and how the women had to do the farming and caring for the stock while the men were away in the army.

Captain Fasset was also one of the first judges of the supreme court of Vermont and was chairman of the convention at that time. Her aunt, Sarah Fasset, was the daughter-in-law of one governor of Vermont, Thomas Chittenden, sister-in-law of another, Martin Chittenden, and mother-in-law of still another, Governor Galusha.

Mrs. Clark came to Ohio by stage through a part of New York state, by boat across Lake Erie to Cleveland, and by canal boat and wagon to Granville, in 1855. For many years past since the death of her husband the late Strong Clark, she has been tenderly cared for at the home of Mr. and Mrs. Orris Clark, one mile east of Croton. She has always been a consistent, earnest church member. For several years she was a member of the Daughters of the American Revolution, being the last surviving living daughter of a Revolutionary soldier in Ohio.

HOUSEWIVES HEADACHES

You don't know why you suffer from headache and you are apt to believe you have some dire female trouble, but its dollars to doughnuts that you are wrong. Women are prone to put off the duties of Nature to attend to the duties of the home and when they do get time to go, the feeling has passed. Constipation results and then the awful racking headache. Take a spoonful of

Dr. Caldwell's Syrup Pepsin

every night before going to bed. Keep it up for a few weeks.

A. F. Elliott, of Troy, Ohio, writes under date of June 10, 1903: "My wife and self suffered on and on for three or four years with Constipation and Sick Headache, and we received almost instant relief by taking Dr. Caldwell's Syrup Pepsin. The use of several bottles restored our digestive organs to normal condition, and although we are free from any gastric trouble, we do not consider being without a bottle for a minute."

Bowser as a Farmer EAST NEWARK

He Plans to Raise Vegetables For Himself and Two Grocery Stores

[Copyright, 1903, by C. B. Lewis.]
"I've got to go down to the seed store for a little while," said Mr. Bowser after he had finished his dinner the other evening, "and perhaps you would like to go along."

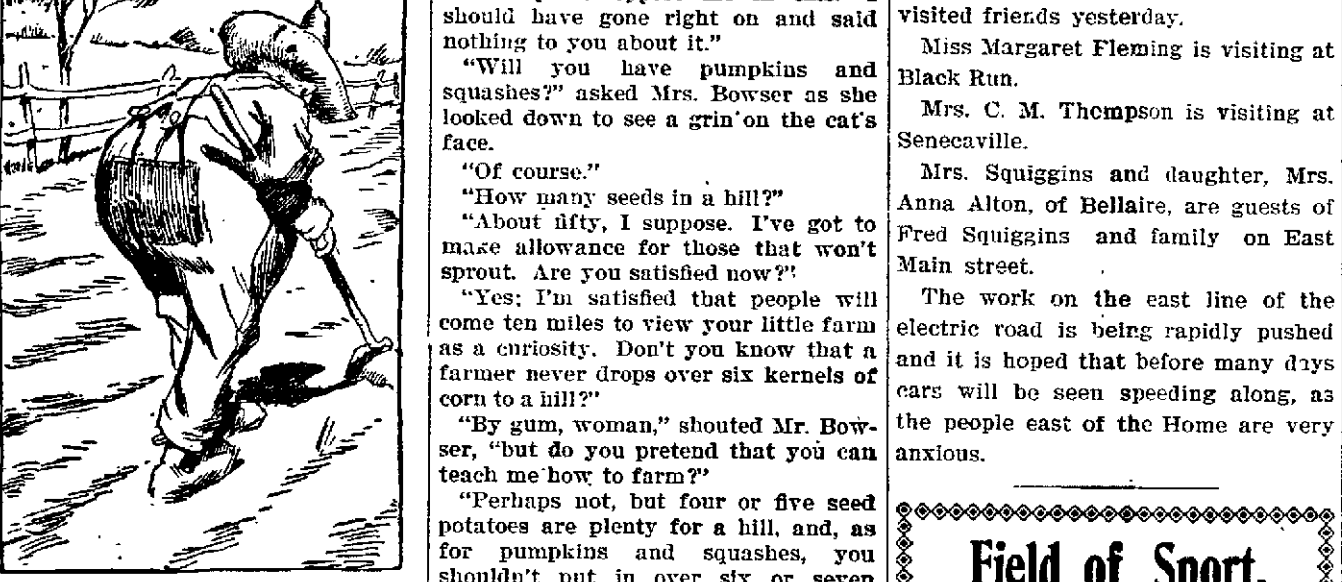

"Are you going to buy seeds?" asked Mrs. Bowser.
"Yes."

"But what for? You aren't going to dig up the back yard again this spring, are you?"

"Not at all. It's quite a different matter. I've been thinking things over for a week past. I am a man who has got to have plenty of exercise. I might as well have the exercise and a cash profit at the same time."

"Do you mean that you are going to carry out ashes or shovel coal?"

"No, ma'am, I don't; I mean that I am going to do a little farming this year."

"I SHALL BECOME FARMER BOWSER NEXT WEEK."

year. I shall get my exercise in planting and hoeing, and the profit will come in as the various crops ripen. The doctors tell me that it is the best thing in the world for my rheumatism, and I have figured that I can make a clear profit of \$500. Yes, I shall become Farmer Bowser next week."

"And where is your farm?"

"Tomorrow I am going to see the owner of some vacant lots down the street and hire four of them for a year. They are only a quarter of a mile away. I shall get up every morning and work from 5 to 7, and I can work every evening from 8 to 10. I'll bet I gain thirty pounds this summer, and our table will be constantly supplied with lettuce, onions, beets, potatoes, cucumbers, tomatoes, etc. I shall also arrange to supply two groceries. Get on your things if you want to go with me."

"Don't you want to figure a little?"

"For \$15 you will be doing well," said Mrs. Bowser as she put down the figures.

"Why don't you make it \$100?" he growled. "I see your little game, but don't think it will work with me. I can't be discouraged."

"Of course not, but you might as well know what you are doing. Let's see; your little farm will cost you \$70 by the time you are ready to begin planting."

"I deny it."

"But here are your own figures, my dear. You are going to plant corn. How many kernels do you drop into a hill?"

"A pint, of course."

"And how many seed potatoes?"

"A dozen or so. What are you trying to get at now?"

"I just wanted to learn your system of farming."

"My system is all right, and you needn't worry over it. I might have known you'd oppose me in this. I should have gone right on and said nothing to you about it."

"Will you have pumpkins and squashes?" asked Mrs. Bowser as she looked down to see a grin on the cat's face.

"Of course."

"How many seeds in a hill?"

"About fifty, I suppose. I've got to make allowance for those that won't sprout. Are you satisfied now?"

"Yes; I'm satisfied that people will come ten miles to view your little farm as a curiosity. Don't you know that a farmer never drops over six kernels of corn to a hill?"

"By gum, woman," shouted Mr. Bowser, "but do you pretend that you can teach me how to farm?"

"Perhaps not, but four or five seed potatoes are plenty for a hill, and, as for pumpkins and squashes, you shouldn't put in over six or seven seeds. Will you make your own beds for radishes, onions and so forth or hire it done?"

"None of your business. You can let go of this thing right here and now, and don't let me hear another word from you. I shall have a little farm; I shall raise crops; I shall get the exercise, and I'll be hanged if you get a single onion of the whole dozen bushels! I am now going down to buy seeds, and I am going alone."

He left the house for the seed store, but on his way he stopped in at his family grocer's and asked how many kernels of corn a farmer planted in a hill.

"Five or six," was the reply.

"And how many seed potatoes?"

"Not more than that."

The druggist told him the same and so did the butcher, but he was not satisfied. A farmer who was making ready to return home after selling a load of produce was appealed to.

"Do you think of farming?" he inquired after looking Mr. Bowser over.

"Yes."

"And you don't know any better than to plant a pint of seed corn in a hill?"

"I intend that a pint is the proper proportion."

"Waal, if I was going to raise jackass fodder I'd plant a pint to a bill. I'll bet your wife has a burned hard time livin' with you and that she knows more in a minute than you do in a week."

A policeman happened along just in time to get between them and prevent a row, and Mr. Bowser slowly walked back home.

"I forgot to ask you about clothespins," said Mrs. Bowser as he entered. How many do you plant to a hill?"

But he glared and gritted his teeth and went down cellar to sit on an empty barrel to sulk over it in the darkness, and when the cat came down to cheer him up he threw the whole coal bin at her.

MISS DOYLE

Milliner in Mrs. Bowers' Store and
Sister of Conductor John Doyle
Died Tuesday.

Miss Mame Doyle, daughter of the late John Doyle, died at the family home, 127 West Church street, at 6 o'clock Tuesday morning after a long illness of progressive anaemia, although she had only been confined to her bed a couple of days.

Miss Doyle had for a long time been connected with Mrs. H. M. Bower as a milliner, but last March she was compelled on account of failing health to give up her work and since that time she had endeavored to recuperate. The deceased leaves one brother, John Doyle, B & O passenger conductor and two sisters, Misses Rose and Sarah Doyle.

The funeral will take place from St. Francis de Sales church Thursday morning at 9 o'clock. Interment in Mt. Calvary cemetery.

ELECTRIC LINE

PROGRESS BEING MADE ON THE
NEWARK-MT. VERNON.

Talk of Change of Route in Licking
County for Good Reasons—Money
Back of the Project.

The promoters of the Newark, Martinsburg and Mt. Vernon road have about completed their preliminary work in Knox county and the right of way is in fine shape from Martinsburg to Mt. Vernon. By changing their course from Martinsburg to Gambler they have overcome their difficulties in that direction. Some of the parties back of this project have been looking over a new line in a road with a view to changing the route and running almost due north from here to Martinsburg if the line on the line via Wilkins and Rocky Fork do not immediately come up to what is required of them. Considering the very many advantages derived from an electric road we do not see why a community so remote from railroad facilities should hesitate a moment to give the right of way necessary to secure this road and if the route is changed they will never have another opportunity of securing a road. The new route contemplated will shorten the line four or five miles and is said to be an excellent route. There is plenty of money back of this project and it is expected that something good of it soon will be heard.

A VISIT TO OUR STORE TO LOOK AT WASH GOODS MEANS A PURCHASE BEFORE LEAVING

The stock is too large to specify prices here, but you will find them remarkably low and although we have closed out many patterns we are constantly adding to our assortment from delayed arrivals of our original purchases.

Special Sale of Summer Silks. See our windows for styles with prices marked on each pattern.
